- 11.—Wide date. Similar to 9 but 8 is nearer bust and letters in word LIBERTY not so close together. With reverse H.
- 12.—Wide date. Quite similar to preceding, the letters in LIBERTY close, 8 quite close to bust. With reverse H.
- 13.—Very wide date. The 8 touches bust, first star on left close to hair, LIBERTY widely spaced. With reverse D.
- 14.—Very wide date. Similar to 7 but date is wider, first star on right more distant from bust. With reverse A, M, O.
- 15.—Wide date. Similar to 10 but letters in LIBERTY closer, die crack through E in LIBERTY across bust through 1 in date. With reverse N.
- 16.—Wide date. The 8 touches bust, stars not so close to L and Y in LIBERTY as on 13. With reverse M, N.
- 17.—Close date. Similar to 10 but first stars on left and right closer to bust. Letters in LIBERTY close. With reverse O.
- 18.—Close date. The 8 much higher than other figures. With reverses H, I, P, R, S.

Reverses.

- A.—Star distant from eagle's beak, 3 stars at left form a triangle; 13 arrows in claw, all perfect; 2 upper berries on olive branch distant from each other; stem of branch turns downward, claw close to A. With obverse 3, 4, 14.
- B.—Star merged in eagle's beak; 2 upper berries on branch close together; 13 arrows of which 3 are imperfect; stem of branch turns toward tail of eagle, claw close to A. With obverse 3.
- C.—Star barely touches beak. Claw distant from A. With obverse 3.
- D.—Star does not touch beak; 3 arrows imperfect; the stem of branch turns downward; die break at base of first A in AMERICA. With obverse 4.
- E.—Point of star touches ribbon but does not quite touch beak; only 4 berries on olive branch. With obverse 5.
- F.—Similar to A. One arrow imperfect, second and third berries from top of branch close. With obverse 6.
- G.—Upper berries on branch close; arrows perfect; eagle's clam to left of A. Leaf point to left of I in AMERICA. With obverse 7.
- H.—Star distant. Two upper stars touch clouds; berries close together; claw over A; arrows perfect; leaf points between R and I. With obverses 8, 11, 12, 18.
- I.—Star touches eagle's beak; all top stars close to clouds; claw distant from A; arrows perfect; leaf points to right part of I. With obverses 9, 18.
- J.—Ten arrows in eagle's claw; leaf points to left of I. With obverse 7.
- K.—Similar to H. Stem of branch turns down; arrows perfect; leaf over C in AMERICA imperfect. With obverse 10.
- L.—Ten arrows in claw; no other ends show, has break at A in AMERICA. Mr. Haseltine mentions this variety and suggests it may be same as D. We have not seen it. With obverse 13.
- M.—Similar to J. Arrows perfect; clouds heavy under OF. In the line of the 3 stars behind eagle's head, the centre one is much higher, 13 arrows. With obverses 14, 16.
- N.—Similar to J. Claw of eagle close to U in UNITED. Stars on left more distant from clouds; 13 arrows. With obverses 15, 16.
- O.—Star touches eagle's beak; two upper stars merged in clouds; die break at stem of olive branch extends to border. With obverses 10, 14, 17.
- P.—Four upper stars touch clouds; 13 arrows, 2 imperfect; leaf point to centre of I; claw close to A. With obverse 18.
- R.—Upper stars distant from clouds; 3 on left form a triangle; leaf points to right part of I; end of branch turns toward tail of eagle. With obverse 18.
- S.—Similar to H. Star barely touches beak; stars distant from clouds; claw closer to A. With obverse 18.

I am much indebted to Mr. John W. Haseltine's list of die varieties (1881), and have really used it as a ground work, although the arrangement is entirely different.

A California Doubloon.

Through the courtesy of Dr. J. M. Henderson of Columbus, Ohio, we are enabled to present to our readers the illustration of a pattern piece of a new variety of private coinage. So far as we are able to learn, this is the first time this piece has ever been illustrated in a numismatic publication.

The central design of the obverse evidently is copied after that of the Mexican goldpieces, and shows a hand holding a pole surmounted by a liberty cap before a book representing a constitution.

The whole design is very appropriate to California, which in 1851 had but recently emerged from Mexican domination. The denomination of one doubloon, or sixteen dollars, is likewise appropriate, as the doubloon was so long current in that section of the country.

The diameter of the piece is 35 mm., with plain edge, and it is composed of a brass composition.

It will be given the number of 103 in the list of "Pattern and Experimental Pieces of California," by Edgar H. Adams.

The John Law Medals.

1720. Law standing holding ship in left hand and scroll in right hand inscribed, "LOUISIANA EST BANCO ET MONETA." (Louisiana is a bank and a mint). In field to left a cave tenanted by Envy, who is regarding Law and screaming and tearing her hair with rage. Fame flying above. Rev., Long Latin inscription translation of which follows: Envy—You allure those who seek for wealth by the sale of a vain hope. Praise—That which is true although it may be now hidden some time will come to life. Envy—You sell mountains of gold; you possess only brass. Law—Whatever there is under the earth, time will bring it to life. Horace, Epistle 1:6. The Author—Malice feeds upon the living, after death it rests; then every man's character is esteemed to his particular deserts. Ovid, Art of Love, 1:15. Struck at Strasburg in 1720. Pewter. Betts 11. Alexi I.

Argentina's First Copper Coin.

The first coin in copper to be issued by the Provinces of the Plata River was the above, which was authorized by the Junta on Oct. 22, 1821, when the Governor was instructed to arrange for the striking of copper coins outside of the country to supply pressing needs. On July 23, 1823, the General Treasurer was directed to place into circulation 50,000 pesos in copper coins of the denomination of "un decimo de real," or one-tenth of a real, which he had received as a part of the amount authorized to be struck by the law of Oct. 22, 1821. The law provided that the inhabitants of the provinces should receive them in the ratio of ten pieces for one silver real and five for one-half real. It was also provided that no one should be required to receive an amount exceeding two pesos in each hundred of these coins. We are indebted for this information to the work entitled "Leyes y Decretos de America del Sud," by Alejandro Rosa, Buenos Aires, 1891, pp. 148-149.

This copper coin is of a diameter of 23½ mm., and has a plain edge. Rosa states that his specimen weighed 5 grams 7 decigrams. The same design was struck in 1823, after which it was discontinued. These coins were struck at the Soho Mint of Watt & Co., of Birmingham, England.

Haiti's Handsomest Coin.

Among the notable designs of Haiti's coinage is the one shown above, which first appeared in 1881, and was the largest denomination of a set of four pieces, all in silver, of the denominations of 1 Gourde, 50 Centimes, 20 Centimes, and 10 Centimes. The diameter of the Gourde, which is here-with illustrated, is 37 mm. The obverse inscription reads: REPUBLIQUE * D'HAITI AN 79. Below the head, at the border, 900 MILL. 1882. 25 GRAM. The reverse reads: LIBERTE . EGALITE . FRATERNITE. Below the coat of arms on a label, in small letters, is the motto UNION FAIT LA FORCE, (In Union There is Strength.) Below this label is the denomination, 1 GOURDE. The designer of this coin was the famous French artist Roty, whose name appears in small letters below the head on the obverse—ROTY GR. Slightly to the right of Roty's name is that of LAFORESTERIE. These coins evidently were all made at the Paris mint.

Medal Commemorating Lima's First Street Ry.

The above medal was issued to commemorate the inauguration of the first street railway in Lima, Peru, the date on the piece being March 24, 1878. The street car on the obverse is a double-decker very similar to the Fifth Avenue automobile buses in use at the present time, with the exception that there appear to be places for entrance and exit at each end. Beneath the representation of the car is the name, in very small letters, of E. GRIS. This medal is listed by Moyaux under No. 442. The diameter is 37½ mm., with plain edge, and is made of silver.

Correction.

Editor COIN & MEDAL BULLETIN:

Have been very much interested in your list of Ohio Civil War Tokens that is now running in COIN & MEDAL BULLETIN. In your last issue you have attributed Tyler's Beehive Store to the Ohio Tokens under Nos. 700 and 701. This is an error which any collector would make unless he had the token in his collection, which I have, and its rubbing you will find above, not very plain but will give place distinctly. It is an Indiana token from Indianapolis. My description of this token is: Obv.—Tyler's | Bee Hive | Dry Goods | 2 West | Washington St. | Indianapolis | Rev., same as your obv. of No. 700.

Very truly,

GEORGE HETRICH.

Birdsboro, Pa., July 27, 1916.

(We are very thankful to Dr. Hetrich for the information contained in his communication, and will be glad to make the correction.—Eds.)

A Rare Mexican Proclamation Piece of Charles III.

One of the interesting proclamation pieces of Mexico, which the late Benjamin Betts referred to in an article entitled "Ten Undescribed Spanish-American Proclamation Pieces," published in the 1897 *American Journal of Numismatics*, Page 39, was a piece attributed to Oaxaca, Mexico, which up to the time Mr. Betts wrote the article was unknown to students of Spanish-American coinage, and since that time has remained the only specimen located. The article of Mr. Betts was accompanied by line sketches of all the pieces mentioned, but it is thought that a reproduction of the original piece will be of interest to our readers.

The piece is quite crude in workmanship, and shows a curious error in placing the lion in the centre of the shield representing the coat of arms of Oaxaca to the right, whereas ordinarily it is placed facing to the left. Below this coat of arms is the word GRANDELLANA, while on the obverse the name OAXACA is shown just below the bust of Charles III.

Mr. Betts rendered the obverse inscription as CVIVS . EST IN RC, with CAROLI, and at the bottom III. He rendered the reverse inscription HISP. ET. IND VEP. (the "P" upside down) PROCLA, and at the bottom, * 1760 * The size is 36 mm., and the metal silver.

Peruvian Railroad Medal Unlisted by Moyaux.

This medal commemorates the inauguration of the Cuzco (Peru) railroad. It does not indicate the terminals. On the obverse, around the central device, is the inscription INAUGURACION DEL FERRO—CARRIL DEL CUZCO. * 13 DE SETIEMBRE DE 1908. * On the reverse is the following: SIENDO PRESIDENTE DE LA REPUBLICA EL EXCMO. SR. JOSE PARDO. MINISTRO DE FOMENTO SR. DELFIN VIDALON. REPRESENTANTE DE LA PERUVIAN CORPORATION SR. W. L. MORKILL. INGENIERO EN JEFE SR. F. MAC GINNES. This piece is not listed by Moyaux. The diameter is 35 mm., plain edge, and composed of silver.
